

# Traffic Jam

For 2 players

## Equipment

- game board printed twice
- game cards - 1 set for each player

Giving instructions

Listening and following instructions

Positional concepts - left, right, top, bottom, in front, beside

Number and color

## Rules

1. Each player places a game board and set of cards in front of them.
2. Construct a barrier between players.
3. Players decide who will give instructions and who will follow. Player 1 asks player 2 to place one of their game cards on their game board in a specific position. Player 2 should also place the card in the exact position given in the instruction on their board.
4. After giving the instructions and using all the game cards, remove the barrier and compare the two boards. Player 2 should have all the cards in the correct place.
5. Continue the game by reversing roles.

## Adaptation

Play the game with a small group of children. Each child has their own game board and set of cards. The adult has a copy of the game board and cards which is hidden from the players. Give the children instructions that help develop their understanding of a variety of concepts.

## Sample instructions - color and position

- Put the tree in the top right corner.
- Put the blue car under the tree.
- Put the stop sign in the middle of Pink St.
- Put the house with the blue door beside the tree.
